

Download the file

Cut along the solid lines

## Instructions:

1. Download the worksheet and colour the bouquet using your favourite colours, markers, or crayons. You can also add decorations like stickers, glitter, or small drawings to make your bouquet truly unique and special.
2. In each blank space on the bouquet, write a short message expressing your appreciation for your teacher aide.
3. After decorating and writing your message, carefully cut along the dotted lines and fold the section, making sure the top of the bouquet aligns perfectly.
5. After the bouquets are assembled, students can present them to their teacher aides as a special gift on Teacher Aide Appreciation Day.
